

The problem

- A baby produces **1 ton of waste** in disposables
- In QC, **600 million diapers/year go in landfills**, taking 500 years to decompose
- Cloth diapers consume **two times less water** (to produce & wash over 2-3 years) than disposable diapers

OVER **300** pounds of WOOD 

50 — pounds of — PETROLEUM FEEDSTOCKS  & **20** — pounds of — CHLORINE 

— Are used to produce — **EACH YEAR**
